

YEAR 7

HIGH ACHIEVERS CLASS

In 2025, Mullumbimby High School will continue to offer students the exciting opportunity to apply for our Year 7 High Achievers Class of 2026.

What is the Year 7 High Achievers Class?

Our High Achievers class is a supportive and academically challenging learning environment designed to extend and inspire students with high potential. The class is designed for curious and motivated learners who want to think critically, explore subjects in greater depth, and engage in creative problem solving. With a focus on academic excellence, enrichment, and personal growth, the High Achievers class nurtures a culture of curiosity, ambition, and high expectations.

Who can apply?

All 2025 Year 6 students from government and non-government schools in the Mullumbimby High School zone can apply for entry into our Year 7 High Achievers class. Students who have indicated that they are attending another high school in 2026 are also welcome to apply. Primary schools will email the application form to parents. Application forms can also be accessed via our school's website. Alternatively, you can pick one up from either the Mullumbimby High School administration office or your local primary school.

What is the selection procedure?

Entry into our Year 7 High Achievers class will be highly competitive. To be selected, students will need to complete an application and come to an interview with a sample of their work. Prior to the interview, the student will also be asked to complete a writing task at their primary school. Applications will also need to be supported by the Primary School Principal.
